

Navajo Technical University (NTU) offers a range of introductory courses in Computer Science (CS), Business Computer Information Systems (BCIS), and Cybersecurity (CYB) that would complement a major in Electrical Engineering. Here are some specific courses that a student at NTU might consider:

1. Computer Science (CS) Courses:

- CS 111 - Introduction to Computer Science
- CS 131 - Programming Fundamentals
- CS 211 - Data Structures
- CS 221 - Computer Organization and Architecture

2. Business Computer Information Systems (BCIS) Courses:

- BCIS 111 - Introduction to Business Computer Information Systems
- BCIS 131 - Introduction to Computer Applications
- BCIS 211 - Management Information Systems
- BCIS 221 - Database Management Systems

3. Cybersecurity (CYB) Courses:

- CYB 111 - Introduction to Cybersecurity
- CYB 131 - Network Security Fundamentals
- CYB 211 - Cryptography and Information Security
- CYB 221 - Ethical Hacking and Penetration Testing

These courses would provide a solid foundation in computing principles, information systems, and cybersecurity concepts, which can be valuable for students majoring in Electrical Engineering, especially in today's interconnected and technology-driven world.
