ABOUT THE WORKSHOP

The workshop will cover a wide range of topics aimed at increasing awareness of cybersecurity careers, introducing online tools for finding job openings, and providing resources to help students explore opportunities in this rapidly growing industry.

Also included is our RING micro-workshop, designed for high school faculty to enhance their understanding and teaching of cybersecurity. Participants will benefit from interactive lectures, hands-on exercises, and peer collaboration, aligning their curriculum with industry certifications and NSA CAE Program KUs to better prepare their students for future careers.
