# Enjoy your summer break, but keep an eye on what's next!

Information Technology (IT) skills can expand your future—no matter what you're into.

What *is* IT anyway?

It's *how* people use computers, networks, software, and data to solve problems and make things work—in every industry.
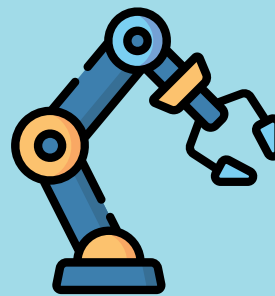

Agriculture

Finance

Healthcare

Construction

Marketing

Forensics

Manufacturing

Automotive Technology

Explore IT classes this fall!
You might be surprised where they lead.
